

EXCITE YOUR EYES!

THE WORLD'S FIRST 3D MONITOR FOR GAMERS

WORK IN 2D

Not playing in 3D 24x7 yet? No worries! This display is a top-of-the-line 2D monitor that the whole family can use for email, productivity applications, or viewing content in a standard 2D mode.

- ▶ Easy keyboard toggle between 2D and 3D
- ▶ 1680 x 1050 High Resolution
- ▶ Extra backlights for bright, clear display
- ▶ Wide screen for multi-page viewing
- ▶ Classic black matte bezel
- ▶ No glasses, drivers or dual-input required for 2D

\$399 MSRP

PLAY IN 3D

HUNDREDS OF GAMES

For about the price of a good 24-inch 2D monitor, you could have a great 22-inch 3D/2D switchable monitor with all the gear you need to play in 3D!

iZ3D puts 3D in your face, not on your face!

- ▶ Stacked dual-LCD panel construction for the only true full resolution 3D
- ▶ Extra backlights for exceptionally bright 3D display
- ▶ Complete software control of the 3D effect, both convergence and separation
- ▶ Inexpensive lightweight passive glasses for no eye strain, fatigue, or headaches- 3D technology is in the display, not in the glasses
- ▶ Wide 3D viewing angle and low cost glasses makes it ideal for multi-player fun

REASONS TO BUY

- ▶ Only true full resolution 3D display
- ▶ Add multiple players/viewers inexpensively – we put the 3D in the display not on your face
- ▶ No headaches, fatigue, or eye strain
- ▶ More software control over the 3D effect you want to see
- ▶ Hundreds of games playable today in 3D – more games and movies coming
- ▶ Industry's best 3D technical support, driver releases
- ▶ More fun to play and watch than ordinary 2D!

ABOUT iZ3D

iZ3D was launched by a group of game enthusiasts that wanted to take gaming to a new dimension! We play hard and we work harder to share our enthusiasm for 3D gaming with you.

iZ3D is a pioneer in 3D displays and software and we're actively building a community of users and content developers that are doing for vision what stereo surround sound did for music!

We are based in San Diego with research and manufacturing in Europe and Taiwan. You can find iZ3D products in US retailers and online around the world.

3D PLUG AND PLAY SPECS

The iZ3D solution is leading edge stereoscopic 3D. Forget what you've seen in the past and skip those bulky shutter glasses. With iZ3D's technology, hours of uninterrupted 3D play is possible.

3RD-PARTY SUPPORT

3rd Party Compatible Games and Content

Nearly all games published in the last 5 years have been written for 3D! That means hundreds of games are just waiting to be played in 3D.

A list of our member's favorites is posted at 3drulez.com.

3rd Party Graphics Cards

The following dual-output card families have been tested for compatibility.

- ▶ ATI Radeon cards
- ▶ ATI FireGL cards
- ▶ nVidia GeForce cards
- ▶ nVidia Quadro cards
